Urgent Help Needed

I usually have updates of what great things of what God is doing in my life on the mission field but unfortunately I need to fill this months news letter with an urgent need of mine. I just had a very huge accident with my computer the other day and I am in an urgent mode to get it repaired. My macbook Pro had a slip and fall which lead to the LCD screen to be damaged. The display doesn't turn on but the rest of my computer does work. I am lucky enough to be working with an external display so I can see and work from that but it is hindering me from being portable which I need on my Job.

Along with my screen being broken, my CD/DVD drive is also damaged as well. The cost of repairs is going to be around \$400-\$500 which is actually very cheep seeing how my mac is \$1,800. I am asking for help in this as this is my life and work out here in South Africa. I really need people to help me by donating extra funds for this month or donate directly for this repair. Please consider helping me in this as this is my life and work here in South Africa and already it is putting a huge hardship on my missions work for Thrive Africa. Thrive unfortunately cannot help me in this as this is my personal property and also they are in no way able to help financially as all money is going to our missions programs.

You can donate by check or online by going to this address www.behind-the-lens.org and clicking on the support page which has all the information you need for donating. If you can help me in anyway that would be great. If you have any questions please email me at mmoline@thriveafrica.org. You can also send a check to CGE which is my partnering organization

to help manage my finances. You can send a check to them to this address

Global Evangelism

PO BOX 367 Eaton Ohio 45320.

Remember to have my name on the memo line of the check so they know who to give it too.

Other than the huge distraction of broken technology in my life God is showing me that he is in control and that he looking out for me and what is next. His promises for this mission that he has me are continually going through my head this past week and I am still moving forward and fighting for the people here.

I really need you to be praying for me in this time as well as I do honestly need it. God has been using my work immensely for Thrive Africa as you can see in one of our latest posts at the Thrive Africa website (www.thriveafrica.org). Go and see for yourself what new and amazing things are happening out here. You can always check out my website at www.behind-the-lens.org and see what new work is being done for His Kingdom. Thank you and I look forward to keeping you updated on what is happening next.
